

Swiss Arbitration Hub: Plan Arbitration Hearings in Switzerland from Around the Globe

Sponsors

HL TRAD
Legal & Financial Translation Worldwide

Thanks to the Swiss Arbitration Hub, parties and arbitrators can organize their hearings in Switzerland from around the globe in only a few clicks. The Swiss Arbitration Hub presents a user-friendly platform that allows the parties to identify, explore and request quotes from a number of hearing facilities and service providers in and around the following seven popular Swiss venues: Basel, Bern, Geneva, Lausanne, Lugano, Neuchatel, and Zurich.

With the Swiss Arbitration Hub parties or arbitrators can:

Find the right hearing venue and book hearing rooms directly: Swiss Arbitration Hub allows users to explore and choose from over 300 meeting rooms in Switzerland selected specifically on the basis of their suitability for arbitration proceedings. Detailed information – including size, capacity, floor plans, audio-visual capabilities and lighting – as well as pictures are available in order to enable users to identify the hearing and break-out rooms that fit their specific needs. Quotes from the hotels can be requested directly via the Swiss Arbitration Hub.

Arrange accommodation: Swiss Arbitration hub identifies a number of conveniently located hotels in each geographical area that are appropriate and meet the needs of hearing attendees. Quotes may be directly requested via the website with preferential rates at selected hotels.

Identify interpreters: Where interpretation services will be required, Swiss Arbitration Hub can assist the parties in identifying qualified individuals for the job. Swiss Arbitration Hub draws from an extensive – and constantly growing – database of providers covering various languages. Should the languages required not be covered on the website, the Swiss Arbitration Helpdesk is available to provide further assistance.

Find court reporters: Swiss Arbitration Hub provides a list of court reporters providing services in Switzerland in English, French and German. Assistance with other languages is available upon request.

Arrange for other support services: Swiss Arbitration Hub identifies the name and contact information of service providers for a variety of additional services that the parties may require, such as transportation, audio-visual arrangements and the organization of office or other hearing-room supplies to the extent not available from the hearing venue directly.
